Re: Addendum to the GPA Waiver as stated in the Student-Athlete Handbook (page7)

With regards to the High School Student-Athlete Code of Conduct, in particular, the GPA waiver and all penalties surrounding the waiver, I hereby declare that the suspension of three weeks as *currently written* be changed to (25) percent of all scheduled games.

The rationale is that some sports have more contests than others and the current language of the code of conduct does not fairly represent all of our stakeholders, mainly our student-athletes. An example would be that soccer will play six to eight games during those first three weeks while football will only play three out of a ten game schedule. In soccer that would be almost half the season.

This change shall be effective immediately to better serve the needs of our athletes in a more equitable manner.

Please inform all of your parents, coaches and staff regarding this change.

Sincerely,

Mike George
