

Madison Elementary School 2018-2019 School Year Goals

Academics

Through TBT meetings, building professional development, and data tracking, we will better align our ELA instruction which will result in an increase in our achievement score in grades 3-5 on the Ohio State Test ELA by 10% for the 2018-2019 school year.

Intention

Through the work of our Attendance Intervention Team, we will implement strategies that encourage students and parents to attend school on a regular basis. We will increase our student attendance by 5% during the 2018-2019 school year, which will result in approximately 117 less days of absences.

Mindset

Through the work of our PBIS committee, we will focus all of our Mindful Meetings on our social-emotional learning by using the Well Managed School Skill of the Week, our Second Step program, and our building wide character traits to reduce our out of school suspensions from the previous school year. We will reduce our out of school suspension rate by 20% (approximately 10 incidences) during the 2018-2019 school year.

Leadership

We will increase the number of students who score in the basic, proficient, accelerated and advanced categories by 20%. By doing so we will increase our performance index from 82.393 points to 85.880 points resulting in 71.6% C on the achievement component of the AIR test in the 2018-2019 school year.
