REQUEST FOR STATEMENTS OF QUALIFICATION TO ESTABLISH A FILE OF QUALIFIED DESIGN PROFESSIONALS

Groveport Madison School District (GMSD) hereby gives notice of its intent to establish a file with current qualifications from design professionals to use as a resource when the compensation for design services will be less than \$50,000. Services for which qualifications will be included in the file include architects, engineers, landscape architects, and surveyors. Anticipated projects include renovations and additions to current facilities and ongoing permanent improvement projects at the multiple GMSD campus locations. Future projects at additional sites could also be possible.

The qualifications file is being established based upon the authority in Ohio Revised Code Section 153.68. This permits a public authority to maintain a file of current statements of qualifications for pre-qualified design professionals. From this file, the public authority may select a firm to provide services when the estimated professional design fee will be less than \$50,000.00. All qualifications received will be maintained in the file and will remain current for a period of one (1) year after receipt; **firms are requested to provide updates on an annual basis to the qualifications to remain current.** Statements of qualifications to be included in the file will be accepted at any time.

Statements of Qualification
