LEARNING

As we conclude February, we are excited to fully embrace the preparations for spring testing. Our students are actively engaging in various practice tests, becoming familiar with the testing platform, and rising to challenges across all subjects. While K-2 students do not participate in the Ohio State Tests, they are still being encouraged to excel as we elevate our academic and behavioral expectations at Asbury.

On the educator front, our focus is on implementing effective instructional strategies, fostering teamwork and collaboration, and utilizing student data to address academic gaps for every learner.

We appreciate your continued support in encouraging students to attend school, concentrate on their learning, and strive for their best. Thank you for being an integral part of our Asbury community. Stay safe and take care!

NEXT WEEK

- **Black History Month Door Decorating Contest**- Students have now finished decorating their doors. Be on the lookout for a Google form being sent out to you this upcoming week to vote on your favorite Asbury door celebrating Black History Month!
- As always, we continue to focus on the learning, being kind, being respectful, and being responsible at all times during and outside of school.
